

AUSTIN PENDERGRAST

FULL STACK WEB DEVELOPER

PROFESSIONAL SUMMARY

I am an artist and gamer, which helps me in my pursuit to become a fluent developer.

I give close attention to detail and can problem solve quickly and do well under time limits.

I love to climb up any ladder and am always willing to work as hard or smart as I need to in order to reach the top.

KEY STRENGTHS

PREVIOUS EXPERIENCE

TEACHERS ASSISTANT, FAYETTEVILLE, AR

- Project Manager, Lambda School | 10 2018 - PRESENT

Provide assistance to the instructor of the part time cohort of Lambda School, I would work closely with the instructors and administrators to make sure that the students were understanding the material and would also grade their assignments and sprint challenges.

It has made me a better Leader, and proficient in explaining and live sharing my code.

AURA PROFESSIONAL COLOR, FAYETTEVILLE, AR

Artist, Owner | JANUARY 2017 - JULY 2018

Responsible for defining campaign objectives and preparing campaign briefs for clients. I was also in charge of implementing online marketing campaigns.

Gave me a lot of experience dealing with clients and giving them a finished product that they were happy with

PREVIOUS EDUCATION

LAMBDA SCHOOL - FULL STACK WEB DEVELOPMENT

JULY 2018 - MARCH 2019

Lambda is a 6-7 month vocational school for web development and computer science. Its a hands on keyboard experience for almost 8 hours a day. Followed by a capstone project and the end of the course.

PROJECTS

Developer Map - MappaJob.com

The developer map is a live map in which developers seeking a job can see the physical location of all hiring companies that are signed up through the site and companies can see and developers on the map in relation to their location.

Palette - <https://github.com/Austinlp4/Palette>

Palette is an artist focused social site where each week you create a piece of art given a specific color palette to be used.
