SUMMARY

I am an artist and gamer, which helps me in my pursuit to become a fluent developer.

I give close attention to detail and can problem solve quickly and do well under time limits.

I love to climb up any ladder and am always willing to work as hard or smart as I need to in order to reach the top.

SKILLS

Technical Skills

- React/Redux
- HTML/CSS
- Node/Express
- Firebase
- JavaScript

Other Skills

PROJECTS

Developer Map

The developer map is a live map in which developers seeking a job can see the physical location of all hiring companies that are signed up through the site and companies can see and developers on the map in relation to their location.

Palette

Palette is an artist focused social site where each week you create a piece of art given a specific color palette to be used.
